Padhne ka aasan tarika: Agar jaldi me hain to sirf **Page 3 (Summary)**, **Page 14 (Budget)** aur **Page 25 (Selection)** padh lijiye. Baaki detail us hisaab se dekh sakte hain.

1 Executive Summary

Aapki aaj ki dikkat, aur DistriCore usse kaise hal karta hai

Aapka business chal raha hai — lekin poora hisaab register, parchi aur yaaddaasht par tika hai. Jaise jaise dukaandaar badhte hain, yeh tarika dheere aur risky ho jata hai. DistriCore isi ko theek karta hai.

Aaj ki 7 badi dikkat — aur unka hal

1. Order phone par aata hai

Dukaandaar call karta hai, aap likhte hain. Vyast ho to order chhoot jata hai ya galat likha jata hai.

Dukaandaar khud order karega

App me photo aur rate dekhkar apna order khud daalega. Na phone, na likhna, na galti.

2. Udhaari register me

Kis par kitna baaki hai — page palatne padte hain. Purana udhaar kai baar bhool jata hai.

Udhaari apne aap

Bill banate hi udhaari jud jati hai. Har dukaandaar ka balance ek click me.

3. Stock ka andaza

Kitna maal bacha hai — sirf anumaan. Kabhi maal khatam, kabhi zyada pada rehta hai.

Live stock

Har product ka bacha hua maal screen par. Delivery hote hi apne aap kam.

4. Salesman ka kaam dikhta nahi

Kis dukaan gaya, kab gaya, kitna kaam hua — sirf uski baat par bharosa.

GPS + photo sabooth

Har visit ka location aur dukaan ka photo save. Kaam ka pakka record.

5. Din ka hisaab raat me

Aaj kitna bika, kitna paisa aaya — raat ko jodna padta hai. Galti bhi hoti hai.

Hisaab har waqt taiyaar

Aaj ki sale, collection aur udhaari — ek screen par, hamesha update.

6. Bill haath se

GST bill banane me time lagta hai. Bill book sambhalna, dhundhna alag musibat.

GST bill turant

Delivery ke saath bill taiyaar. Print ya WhatsApp. Number series apne aap.

7. Network nahi to kaam ruka

Gaon aur andar ke ilaake me network nahi milta. Salesman ka kaam atak jata hai.

Bina network ke bhi chalega

App phone me sab save rakhegi. Network aate hi apne aap upload.

Version 1 lene par aapko kya milega

Ek nazar me

₹18,000

Ek baar ka kharcha
(aapke budget me)

5–6

Hafta me app
aapke haath me

15 / 19

Aapki list ke points
Version 1 me hi

₹780

Mahine ka kharcha
doosre saal se

Version 1 me yeh sab kaam ho jayega

Roz ka kaam

- Dukaandaar khud order kare
- Order seedha warehouse me
- Area ke salesman ko order
- Delivery status update
- GST bill + print / WhatsApp
- Cash / UPI payment entry

Hisaab-kitaab

- Udhaari apne aap chadhe
- Credit limit har dukaandaar ka
- Live stock — kitna bacha
- Stock in / out / adjustment
- Customer statement (khata)
- Roz ki sale aur total

Field & extra

- Visit par GPS + photo
- Salesman naya customer add kare
- Bina network ke poora kaam
- Top 10 customer ranking
- Hindi + English
- Excel download

Seedhi baat: Version 1 koi "trial" ya adhoora app nahi hai. Yeh **poora chalne wala software** hai jisse aapka roz ka kaam — order, delivery, bill, udhaari, stock — sab ho jayega. Register band ho jayega. Baaki features tab lagenge jab business bada hoga, aur tab wo zyada kaam ke bhi lagenge.

2 Before vs After

Aaj register se kaise hota hai, aur DistriCore ke baad kaise hoga

Kaam	Aaj — Register & Parchi se	DistriCore ke baad	Fayda
Order lena	Dukaandaar phone karta hai. Aap sunte hain, likhte hain. Naam, item, quantity — sab haath se.	Dukaandaar app me photo aur rate dekhkar khud order daalta hai. Seedha warehouse me pahunchta hai.	Phone aur likhna dono khatam. Galti nahi.
Order salesman tak	Parchi banti hai, salesman ko di jati hai. Kabhi parchi kho jati hai.	Us area ke salesman ke phone par list apne aap aa jati hai.	Parchi khatam. Kuch nahi chhootega.
Bill banana	Bill book se haath se. GST ka calculation alag se karna padta hai.	Delivery ke saath GST bill taiyaar. Print ya WhatsApp par.	Time bachega, GST sahi.
Udhaari hisaab	Alag register. Kis par kitna — page dhundhne padte hain. Purana udhaar bhool jata hai.	Bill banate hi udhaari apne aap. Har dukaandaar ka balance turant.	Paisa nahi doobega.
Stock dekhna	Godown me jaakar dekhna ya andaza lagana.	Screen par live stock. Delivery hote hi apne aap kam.	Maal khatam hone se pehle pata.
Din ka hisaab	Raat ko parchi aur bill jodkar total nikalna.	Din bhar ka total hamesha ready — sale, collection, udhaari.	Roz ka hisaab, roz.
Salesman report	Salesman jo bataye. Check karne ka koi tarika nahi.	Kis dukaan gaya, kab, GPS aur photo ke saath. Kitni delivery ki.	Kaam ka pakka sabooth.
Purana record	Purane register nikalo, page palto, phir bhi shayad na mile.	Kisi bhi dukaandaar ka poora purana hisaab — ek click.	Jhagda khatam.
Customer ko bill	Carbon copy. Kho jaye to dobara nahi milta.	Dukaandaar apne saare bill khud app me dekh sakta hai.	Bar bar poochhna band.
Network na ho	Kuch nahi ho sakta. Kaam rukta hai.	App offline chalti hai. Network aate hi apne aap upload.	Kaam kabhi nahi rukega.
Naya dukaandaar	Register me naya page, phir details.	Salesman mauke par hi app se add kar deta hai.	Turant, wahi se.
Offer / scheme	Salesman zubaani batata hai. Sab tak nahi pahunchta.	Owner offer daalta hai, sab dukaandaaron ko app me dikh jata hai.	Sabko ek jaisi jaankari.

Roz ka time bachega (andaza): Order likhna, parchi banana, bill banana, udhaari chadhana aur raat ka hisaab — in paanch kaamon me lagbhag **1 se 2 ghante roz** lagte hain. DistriCore ke baad yeh sab apne aap ho jayega. Yeh ek andaza hai, aapke business ke size par nirbhar karta hai.

Sabse badi baat: Aapko naya kaam seekhna nahi hai. Jo kaam aap aaj register me karte hain, wahi ab app me hoga — bas jodna, ghatana aur yaad rakhna app khud kar legi.

3 Business Fayda

Pehle fayda, phir feature — har cheez se aapko kya milega

Har feature isliye rakha gaya hai kyunki wo **ya to time bachata hai, ya galti kam karta hai, ya paisa bachata hai**. Neeche saaf likha hai kaunsa feature kya deta hai.

Fayda 1 — Time bachega

Feature	Kya hota hai	Aapko kya milta hai
Dukaandaar khud order kare	Order lene ke liye phone uthana aur likhna nahi padta	Roz kai ghante ka phone kaam khatam
Auto GST bill	Bill haath se banane ki zaroorat nahi	Har bill par 3–5 minute bachte hain
Roz ka hisaab ready	Total apne aap jud jata hai	Raat ka hisaab lagana band
Purana record turant	Kisi bhi customer ka poora hisaab ek click	Register dhundhna khatam
Salesman ko auto list	Parchi banane ki zaroorat nahi	Har subah ka kaam kam

Fayda 2 — Galti kam hogi

Feature	Kya hota hai	Aapko kya milta hai
Rate app me fix	Har dukaandaar ko wahi rate dikhta hai jo aapne daala	Rate ki galti aur bahas khatam
Stock apne aap kam	Delivery hote hi stock update	Stock ka hisaab hamesha sahi
Udhaari apne aap jude	Bill banate hi ledger me chadh jati hai	Udhaari chadhana kabhi nahi bhoolega
Bill number series	Number apne aap, bina gap ke	GST me dikkat nahi aayegi
Bill kabhi badla nahi ja sakta	Ek baar bana bill fix rehta hai	Hisaab par bharosa

Fayda 3 — Paisa nahi doobega

Feature	Kya hota hai	Aapko kya milta hai
Credit limit	Har dukaandaar ki limit aap set karte hain	Limit se zyada udhaar par warning
Udhaari list	Kis par kitna, kab se baaki — ek jagah	Vasooli ka kaam aasan
Cash / UPI record	Har payment ka tarika record hota hai	Paisa kahan gaya, saaf
Customer statement	Poora khata print karke de sakte hain	Jhagde me sabooth

Fayda 4 — Business dikhega

Feature	Kya hota hai	Aapko kya milta hai
---------	--------------	---------------------

Roz ki sale report	Aaj kitna bika, kaunsa product	Kaunsa maal chalta hai, pata
Live stock	Kitna maal bacha, har waqt	Time par order, paisa nahi phansega
GPS + photo	Salesman ki visit ka record	Field ka kaam dikhta hai
Top 10 ranking	Sabse zyada lene wale dukaandaar	Bade customer pehchane jaate hain
Excel download	Poora data Excel me nikal sakte hain	CA ko dene me aasani

Fayda 5 — Dukaandaar khush

Feature	Kya hota hai	Aapko kya milta hai
Photo aur rate ke saath list	Dukaandaar khud dekhkar chunta hai	Order bada hota hai
Order status	Maal kahan pahuncha, khud dikh jata hai	"Maal kab aayega" ke phone band
Apne bill aur udhaari	Jab chahe khud dekh sakta hai	Bharosa badhta hai
Offer app me dikhe	Scheme sab tak ek saath pahunchti hai	Zyada log offer lete hain

Your requirement list, exactly as you gave it — and where each item is covered

Neeche aapki पूरी list hai. Har point ke saamne likha hai ki wo kis version me milega. Isse aap check kar sakte hain ki kuch chhoota to nahi.

Aapne kaha	App me kya hoga	Version
Registration Number, alternate number, OTP, Language	Mobile number se login. OTP SMS par aayega. App Hindi aur English dono me chalegi.	V1
Top 10 customer name — sab users ko dikhe	Ranking list — jo dukaandaar sabse zyada maal lega wo No. 1 par. Sabko dikhega, competition banega.	V1
Data — all customers, 120 days	Har customer ka poora purchase history — kab kya liya, kitna bill, kitna udhaari. 120 din ya usse zyada.	V1
Add product	Product ka naam, rate, photo, GST rate, pack size (case/piece). 20 se 2000+ tak products.	V1
Customer profile Selling date-time bill	Customer kholte hi uske saare bill date aur time ke saath dikhenge.	V1
Udhaari date-time bill	Kitna udhaar baaki hai, kaunsa bill pending hai, kab se pending hai — sab ek jagah.	V1
Complaint — call	Customer profile me call button. Ek tap me phone lag jayega.	V1
Scheme	V1: Owner offer ka message/photo daalega, dukaandaar ko dikhega. V2: Automatic scheme — 10 case lo to 1 free, ya % discount. Bill me apne aap lag jayega.	V1 auto = V2
MSG alert (SMS)	Order confirm, delivery, udhaari reminder ka SMS. SMS ka kharcha alag hai — Page 8 dekhein.	V2
Zone (Area) Road, PIN code, panchayat, ward, city	Har dukaan ka poora area detail. Salesman ko sirf apne area ke order dikhenge.	V1

Salesman, Owner aur baaki zaroori points

Aapne kaha	App me kya hoga	Version
Salesman Pending order	Aaj kitni delivery karni hai — list app me.	V1
Bill	Delivery ke time GST bill banega aur print/WhatsApp ho sakega.	V1
Customer add	Salesman naya dukaandaar app se hi add kar sakta hai.	V1
Live location + photo	Visit ke waqt GPS location aur dukaan ka photo save hoga. Sirf visit ke time — poore din nahi, jaisa aapne kaha.	V1
Target	Owner har salesman ka monthly target set karega, achievement dikhega.	V2
Owner Har din ki sale — category wise	V1: Roz ki total sale + product wise. V2: Category wise breakup.	V1 category = V2
Stock	Kaun sa maal kitna bacha hai — live. Stock in, stock out, adjustment.	V1
Total amount	Aaj/mahine ki total sale, total collection, total udhaari — ek screen par.	V1
Salesman wise selling, Cash/UPI	V1: Payment Cash ya UPI — dono record honge. V2: Salesman wise report Cash/UPI ke saath.	V1 report = V2
GST bill chahiye	Poora GST invoice — GSTIN, HSN code, CGST/SGST, bill number series. PDF, print, WhatsApp.	V1
Credit limit owner decide karega	Har dukaandaar ka alag credit limit owner set karega. Limit cross hone par warning.	V1
Offline bill — network aane par update	Salesman app bina internet ke chalegi. Network aate hi sab apne aap upload ho jayega. Kuch nahi khoyega.	V1
Shopkeeper khud order karega	Dukaandaar app me product photo + rate dekhkar khud order karega. Order seedha warehouse jayega — owner ki approval nahi lagegi, jaisa aapne kaha.	V1
Android + iPhone dono	Android V1 me. iPhone V3 me. Wajah Page 15 par — Apple ka yearly charge zyada hai.	V1 iPhone = V3

Result: Aapki list ke 19 me se 15 points poore Version 1 me hi aa rahe hain. Baaki 4 aise hain jinme extra kharcha ya extra kaam hai — wo Version 2 aur 3 me rakhe hain.

5 App Kaise Kaam Karegi

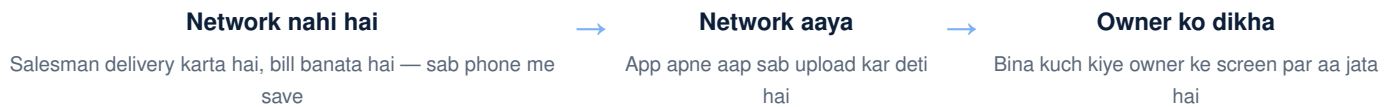

Daily working — order se paisa aane tak

Poora Order Flow (Order se Payment tak)

Sabse badi baat: Yeh saara hisaab **apne aap** hota hai. Stock kam karna, udhaari jodna, total nikalna — kuch bhi haath se nahi likhna padega. Register ki zaroorat khatam.

Network na ho tab kya hoga?

Ek bhi bill ya order gum nahi hoga. App phone me safe rakhti hai jab tak upload na ho jaye.

Kaun Kya Karega

Owner (Aap) — Web par

- Product add karna, rate lagana
- Customer add karna, credit limit set karna
- Stock aana/jaana
- Roz ki sale, total amount
- Kis par kitna udhaar baaki hai
- Salesman ko area dena
- Sab bill dekhna, print karna

Computer, laptop ya mobile browser — teeno par chalega.

Salesman — Mobile App

- Aaj ki pending delivery list
- Delivery done mark karna
- Visit par GPS + dukaan ka photo
- Naya dukaandaar add karna
- Bill banana aur dena
- Cash / UPI payment lena
- Bina network ke bhi poora kaam

Dukaandaar / Shopkeeper — Mobile App

- Mobile number + OTP se login
- Saare product photo aur rate ke saath dekhna
- Khud order place karna — phone karne ki zaroorat nahi
- Order kahan pahuncha — status dekhna
- Apne saare purane bill dekhna
- Apna udhaari balance dekhna — kitna baaki hai
- Top 10 ranking me apni position dekhna

6 Chaar Versions — Kya Kya Milega

Complete feature comparison — tick means included

Ek version chunein. Baad me upgrade karne par **purana data aur app wahi rahega** — sirf naye features add honge. Dobara se banane ki zaroorat nahi padegi.

Feature	V1 ₹18,000	V2 ₹35,000	V3 ₹65,000	V4 ₹1,20,000

7 Budget — Poora Kharcha

One-time development cost + yearly running cost, alag-alag saaf likha hua

A. Development Cost (Ek baar ka)

Version	Kya milega	Seedha lein	Upgrade se	Time
V1 Starter	Poora daily business — order, delivery, GST bill, udhaari, stock, offline. Register band ho jayega.	₹18,000	—	5–6 hafte
V2 Growth	V1 + automatic scheme, SMS alert, target, salesman order, category report, purchase	₹35,000	+₹20,000 V1 ke baad	+4 hafte
V3 Professional	V2 + iPhone app, batch/expiry, multi-godown, return, commission, graph report	₹65,000	+₹32,000 V2 ke baad	+7 hafte
V4 Complete	V3 + multi-business, Tally link, AI prediction, route optimization	₹1,20,000	+₹58,000 V3 ke baad	+10 hafte

Upgrade ka matlab: Aap V1 se shuru karke baad me V2 le sakte hain. Purana data, purane bill, app — sab wahi rahega. Sirf naye features add honge. Upgrade me thoda extra lagta hai kyunki purane hisse ko dobara test karna padta hai.

B. Yearly Running Cost (Har saal)

Yeh kharcha app chalane ka hai — software banane ka nahi. Yeh **seedha service company ko jata hai**, humein nahi.

Kya cheez	Kis liye	V1 & V2	V3 & V4
Server (cloud computer)	App aur data yahan rehta hai, 24 ghante chalta hai	₹7,200	₹7,200
Domain name	Aapki website ka naam — jaise yourname.com	₹1,000	₹1,000
Backup storage	Roz ka backup — data kabhi nahi khoyega	₹600	₹600
OTP SMS (login ke liye)	~3,000 SMS saal bhar me	₹600	₹600
Apple Developer account	Sirf iPhone app ke liye. Apple ka apna charge	—	₹8,300
Total har saal		₹9,400	₹17,700

C. One-Time Extra (Sirf pehli baar)

Kya cheez	Kis liye	Kharcha
Google Play Developer account	Play Store par app daalne ke liye. Zindagi bhar ke liye ek baar.	₹2,200
Purana data entry (optional)	Aapke purane product aur customer app me daalna. Excel me de denge to free.	₹0 – 3,000

Dhyan dein — SMS alert ka kharcha (V2 me): Agar 1000 dukaandaar ko mahine me 4 SMS bhejenge to saal ka lagbhag **₹9,600** ka SMS kharcha alag se aayega.

Hamara sujhaav: SMS sirf udhaari reminder ke liye rakhein (bahut kam kharcha), aur baaki alert app ke andar hi dikhayein — wo bilkul free hai. Isse saal ka ₹8,000+ bach jayega.

Dhyan dein — iPhone app ka kharcha: Apple har saal **₹8,300** leta hai sirf app rakhne ke liye — chahe 1 aadmi use kare ya 1000. India me dukaandaar aur salesman lagbhag sab Android chalte hain.

Hamara sujhaav: Android se shuru karein. Agar 6 mahine me kisi ko iPhone chahiye hoga, tabhi V3 me add kar lenge. Paisa tab lagega jab zaroorat hogi.

D. Pehle Saal Ka Total — Version 1 se shuru karne par

App banane ka kharcha (ek baar)	₹18,000
Play Store account (ek baar, zindagi bhar)	₹2,200
Server, domain, backup, OTP SMS (pehla saal)	₹9,400
Pehle saal ka poora kharcha	₹29,600
Doosre saal se — sirf running cost	₹9,400 / saal

Yaani mahine ka lagbhag **₹780** — ek chhote mobile recharge jitna. Isme aapka poora business system chalta rahega.

E. Payment Kaise Karna Hai

Kab	Kya milega	%	V1 me
Shuru me	Kaam shuru, design finalize	40%	₹7,200
Beech me	App chal kar dikhayenge (demo), aap check karenge	30%	₹5,400
Delivery par	App live, training ho gayi, aap use kar rahe hain	30%	₹5,400

8 Timeline — Kitne Din Me Kya Hoga

Version 1 ke liye — total 5 se 6 hafte

Kaam chhe step me hoga. Har step ke baad aapko kuch dikhaya jayega — aap check karke aage badhne ko kahenge. Aap kabhi andhere me nahi rahenge.

1	Planning Aapse baithkar poori list final. Kaunsa version, kya kya, kis order me — sab likha jayega.		3 din
2	Design App aur website ke screen dikhaye jayenge — kaunsa button kahan, kaunsi screen kaisi. Aapki approval par hi aage.		5 din
3	Development App banega. Har hafte aapko chhota demo dikhaya jayega — product, order, bill, stock, aise hisse me.		3–4 hafte
4	Testing Poori app check hogi — bill sahi, stock sahi, udhaari sahi, offline sahi. Aap bhi apne asli data se try karenge.		5 din
5	Training Aapko, salesman ko aur kuch dukaandaaron ko chalana sikhaya jayega. Ek chhoti hindi guide bhi milegi.		2 din
6	Go Live App live. Play Store par upload. Purana data daala jayega. Aaj se register band.		2 din

Har version ka time

Version	Kya banega	Time	Upgrade se
Version 1	Poora daily business system	5–6 hafte	—
Version 2	V1 + scheme, SMS, target, purchase	9–10 hafte	+4 hafte
Version 3	V2 + iPhone, batch, godown, return	16–17 hafte	+7 hafte
Version 4	V3 + multi-business, Tally, AI	26–27 hafte	+10 hafte

Aapko kya karna hoga: Sirf teen cheezein — (1) shuru me product aur customer ki list dena, (2) hafte me ek baar 30 minute demo dekhna, (3) testing me apne asli order se try karna. Bas itna. Baaki sab hum karenge.

Time badh sakta hai agar: beech me naye feature maange jayein, ya demo par jawab dene me der ho, ya product/customer ki list time par na mile. Isliye har step par aapki approval li jati hai — taaki dono ko pata rahe kaam kahan tak pahuncha.

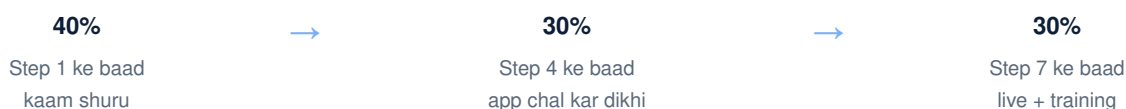

9 Kaam Kaise Hoga

Our development process — step by step, bina kisi confusion ke

Software banane me sabse badi dikkat yeh hoti hai ki client ko pata hi nahi chalta ki andar kya ho raha hai. Hamare yahan aisa nahi hoga — **har hafte aapko kuch chalta hua dikhaya jayega.**

Step	Kya hoga	Hum kya karenge	Aap kya karenge
1	Requirement Final	Aapki पूरी list likhkar aapko dikhayenge. Har point par confirm lenge.	Padhkar haan/na bolenge. Kuch chhoot gaya ho to batayenge.
2	Screen Design	Har screen ka design banakar dikhayenge — asli app jaisa.	Dekhkar approve karenge. 3 baar tak badlaav free.
3	Weekly Build	Har hafte ek hissa banakar chalu karke dikhayenge.	30 minute dekhenge aur feedback denge.
4	Testing	Har cheez check karenge — bill, stock, udhaari, offline, GPS.	Apne asli order aur bill se try karenge.
5	Data Load	Aapke product aur customer app me daalenge.	Excel me list denge (ya hum daal denge — ₹3,000).
6	Training	Aapko, salesman ko, dukaandaaron ko sikhayenge. Hindi guide denge.	Team ko bulayenge, 2 din ka time denge.
7	Go Live	App live karenge, Play Store par daalenge, server set karenge.	Register band karke app chalu karenge.
8	3 Mahine Support	Koi bhi kharabi free me theek karenge.	Dikkat aane par batayenge.

Payment kis step par

Version 1 me: ₹7,200 → ₹5,400 → ₹5,400. Aap tabhi paisa denge jab kaam dikhega.

Hamara waada

Har hafte update

Aapko har hafte pata rahega kaam kahan tak pahuncha. Koi surprise nahi.

Aapki approval par

Design aur har bada hissa aapke haan kehne ke baad hi final hoga.

Data hamesha aapka

Jab chahein poora data Excel me le sakte hain. Kabhi phansenge nahi.

Recommendation — kaunsa version lein aur kyun

Version 1 se shuru kijiye — ₹18,000

Aapke budget ke andar hai, aur isme aapka **poora daily kaam** aa jata hai. Register ki zaroorat khatam ho jayegi. Jab business badhega — jaise aapne khud kaha, **1000 counter** par — tab V2 le lijiyega.

Version 1 me aapka poora din chal jayega

Aaj aap kaise karte hain	Version 1 me kaise hoga	Kya fayda
Dukaandaar phone karta hai, aap likhte hain	Dukaandaar khud app me order daalta hai	Phone aur likhna dono khatam
Salesman ko parchi par order dete hain	Salesman ke phone par apne aap list aa jati hai	Parchi khatam, galti khatam
Bill book se haath se bill	App se GST bill, print ya WhatsApp	Turant, saaf, GST ready
Udhaari register me likhte hain	Bill banate hi udhaari apne aap jud jati hai	Kabhi bhoolega nahi
Stock ka andaza lagate hain	Live stock screen par dikhta hai	Maal khatam hone se pehle pata
Din ka hisaab raat me jodte hain	Din bhar ka total screen par ready	Roz ka hisaab, roz
Salesman kahan gaya, pata nahi	Visit ka GPS aur dukaan ka photo	Kaam ka sabooth

Version 1 me kya nahi hai (aur kyun theek hai)

Nahi hai	Filhaal kaise chalega	Kab lena chahiye
Automatic scheme	Offer ka photo/message daal dijiye, dukaandaar ko dikhega. Discount bill me haath se daal sakte hain	Jab roz 20+ order aane lagein
SMS alert	App khudi order dikha deti hai. SMS ka saal ka kharcha bhi bachega	Jab 500+ dukaandaar ho jayein
Salesman target	Salesman wise sale to dikhegi hi. Target aap register me rakh sakte hain	Jab 3+ salesman ho jayein
Salesman khud order le	Dukaandaar khud order kar raha hai — yahi sabse aasan hai	Jab kuch dukaandaar app na chalayein
iPhone app	Android sab ke paas hai. Apple ka ₹8,300 saalana bach jayega	Jab koi iPhone maange

Sabse zaroori baat: Version 1 kaccha ya adhoora nahi hai. Yeh **poora chalne wala software** hai. Isme wahi cheezein hain jo aap roz karte hain. Baaki features tab lagte hain jab business bada ho jata hai — aur tab wo zyada kaam ke bhi lagte hain.

Aage ka rasta

Support & Warranty

Free support

App delivery ke baad **3 mahine** — koi bhi kharabi (bug) free me theek hogi

Training

Aapko, salesman ko aur kuch dukaandaaron ko chalana sikhayenge — free

3 mahine ke baad

Yearly maintenance — **₹6,000/saal** (optional). Isme bug fix, chhote badlaav aur Android update support milega

Data aapka hai

Jab chahein poora data Excel me download kar sakte hain. Kabhi kisi cheez me fasenge nahi

Isme shaamil nahi hai

Mobile phone, printer, internet connection • GST return file karne ki service (CA ka kaam) • Finalize hone ke baad naye features (alag se quote honge) • Server/domain ka paisa (Section B me alag likha hai) • App ke design me badlaav teen baar se zyada

11 Aage Ka Rasta — Future Growth

Business badhne par upgrade — dobara banane ki zaroorat nahi

Yeh sabse zaroori baat hai. App is tarah banayi jayegi ki **aage ke features sirf jodne padein — poora software dobara na banana pade**. Aapka purana data, purane bill, purani udhaari — sab wahi rahega.

VERSION 1 ₹18,000	VERSION 2 +₹20,000	VERSION 3 +₹32,000	VERSION 4 +₹58,000
Aaj se • Order & delivery • GST bill • Udhaari & credit limit • Live stock • GPS + photo • Offline working • Top 10 ranking • Basic report Kab tak theek hai: lagbhag 1000 dukaandaar tak	500–1000 counter par • Automatic scheme • SMS alert • Salesman target • Salesman khud order le • Purchase / supplier • Category report • Udhaari aging • GSTR-1 export Kyun: jab haath se scheme lagana mushkil ho jaye	Business bada hone par • iPhone app • Batch / expiry • Ek se zyada godown • Maal wapsi (return) • Salesman commission • Route planning • Graph report • WhatsApp alert Kyun: jab team aur godown badh jayein	Aage jaakar • Ek se zyada business • Tally / accounting link • Sale prediction (AI) • Route optimization • Advanced analytics Kyun: jab doosri branch ya franchise khulein

Upgrade karne par kya hoga — aur kya nahi hoga

Yeh hoga ✓	Yeh nahi hoga ✗
Naye features app me jud jayenge	App dobara nahi banegi
Purana saara data waise ka waisa rahega	Purana data khoyega nahi
Purane bill aur udhaari sab safe	Dobara data entry nahi karni padegi
Wahi app update ho jayegi	Nayi app download nahi karni padegi
Salesman ko dobara sikhana nahi padega	Kaam 1-2 din se zyada nahi rukega
Sirf naye feature ka paisa lagega	Poora amount dobara nahi dena padega

11 Aage Ka Rasta (continued)

Kab upgrade karna chahiye — ishaare

Isko aise samajhiye: Jaise makaan me pehle do kamre banate hain, aur baad me upar ki manzil chadha dete hain — neechhe ki neev wahi rehti hai. DistriCore ki neev shuru se hi aisi banayi jayegi ki upar manzil chadhai ja sake. **Isi wajah se Version 1 se shuru karna nuksaan nahi, samajhdaari hai.**

Ishaare — kab agla version lena chahiye

Agar aisa hone lage...	Toh yeh version lein
Roz 20+ order aane lagein aur scheme haath se lagani padein	Version 2 — automatic scheme
500+ dukaandaar ho jayein aur unhe khabar dena mushkil ho	Version 2 — SMS alert
3 se zyada salesman ho jayein	Version 2 — target & report
Doosra godown khul jaye	Version 3 — multi-godown
Expiry wale product rakhne lagein	Version 3 — batch tracking
Doosri branch ya franchise khule	Version 4 — multi-business

Baad me koi galatfehmi na ho, isliye saaf saaf likha hai

✓ Yeh Shaamil Hai (price me)

- **Poori app banana** — jo version aap chunenge
- **Owner ka web panel** — computer aur mobile dono par chalega
- **Android app** — salesman aur dukaandaar ke liye
- **Play Store par upload** karna
- **Server setup** — app chalane ka poora intezaam
- **Screen design** — 3 baar tak badlaav free
- **Testing** — poori app check karke deni
- **Training** — aapko, salesman ko, dukaandaaron ko
- **Hindi user guide** — chhoti si book
- **3 mahine free support** — koi bhi kharabi free me theek
- **Excel se data import** — agar aap list Excel me denge
- **Daily backup** ka intezaam
- **Data export** — jab chahein Excel me poora data

✗ Yeh Shaamil Nahi Hai

- **Mobile phone, computer, printer** — hardware aapka
- **Internet connection** — aapka
- **Server aur domain ka saalana kharcha** — Section 7 me alag likha hai (₹9,400/saal)
- **Play Store account fees** — ₹2,200 ek baar (Google leta hai)
- **iPhone app** — Version 3 me hai, ya alag se ₹15,000
- **GST return file karna** — yeh CA ka kaam hai. App sirf bill aur report degi
- **SMS ka kharcha** — Version 2 me SMS bhejne ka alag charge
- **Naye feature** jo is list me nahi hain — alag se quote honge
- **Purana data type karna** — Excel me na ho to ₹3,000
- **Design me 3 se zyada badlaav**
- **3 mahine ke baad support** — ₹6,000/saal (optional)
- **Tally ya doosre software se jodna** — Version 4 me

Support & Warranty

3 mahine free support

App milne ke baad 3 mahine tak koi bhi kharabi (bug) bilkul free theek ki jayegi. Iske liye alag paisa nahi lagega.

Training

Aapko, aapke salesman ko aur kuch dukaandaaron ko chalana sikhaya jayega — free. Hindi me likhi guide bhi milegi.

3 mahine ke baad

Yearly maintenance — **₹6,000/saal**, marzi ka. Isme bug fix, chhote badlaav aur Android ke naye version ka support milega.

Data aapka hai

Poora data hamesha aapka rahega. Jab chahein Excel me download kar sakte hain. Hum kabhi data rok nahi sakte.

Kharabi ka jawab

Kaam ruk jaye aisi kharabi — **usi din**. Chhoti dikkat — **2–3 din me**.

Kyun likha hai yeh sab? Kai baar software banane ke beech me "yeh bhi kar do, wo bhi kar do" hone lagta hai, aur phir dono taraf naraazgi hoti hai. Isliye shuru me hi saaf likh diya gaya hai. Agar aage koi naya kaam chahiye, to uska alag quote diya jayega — taaki time aur paisa dono clear rahein.

13 Aapke Sawal — FAQ

Jo sawal har business owner poochta hai

App chalane se judi baatein

1 Network nahi hoga to app chalegi?

Haan. Salesman ki app bina internet ke poori chalti hai — delivery mark karna, bill banana, visit, photo, GPS — sab. Sab kuch phone me safe rehta hai. Jaise hi network aata hai, app khud sab upload kar deti hai. Ek bhi entry nahi khoeyegi. Owner ka web panel chalane ke liye internet chahiye.

2 Salesman ka mobile kho jaye ya toot jaye to?

Jo data upload ho chuka hai wo bilkul safe hai — naye phone me login karte hi wapas mil jayega. Sirf wo entries ja sakti hain jo phone me thi aur abhi tak upload nahi hui thi. Isliye salesman ko din me ek baar network wali jagah par sync karne ko kaha jata hai.

3 App chalana mushkil to nahi hai?

Nahi. App Hindi aur English dono me hogi. Screen bilkul simple — list, form aur button. Jo aadmi WhatsApp chala leta hai wo yeh app chala lega. Training bhi hum denge.

4 Purana data kaise aayega app me?

Aap apne product aur customer ki list Excel me de dijiye — hum daal denge, bilkul free. Agar Excel me nahi hai (register me hai) to hum type kar denge — iska ₹3,000 lagega.

Data aur suraksha

5 Mera data kahan rahega? Safe hai?

Data ek secure server par rahega jo sirf aapke liye hoga. Roz apne aap backup hoga. Har user ka apna password hoga. Dukaandaar sirf apna hi data dekh sakta hai — kisi doosre ka nahi. Salesman sirf apne area ka.

6 Kya aap mera data dekh sakte hain ya kisi ko de sakte hain?

Nahi. Data poori tarah aapka hai. Sirf technical dikkat theek karne ke liye, aur wo bhi aapki permission se. Kisi teesre ko kabhi nahi diya jayega.

7 Agar main aage chalkar app band karna chahoon to?

Aapka poora data Excel me download karke de diya jayega — product, customer, bill, udhaari, sab. Aap kabhi phanse nahi rahenge.

Business badhne par

8 Naye salesman add karne par extra paisa lagega?

Nahi. Jitne salesman chahein add kar sakte hain, koi extra charge nahi. Har user ka alag login banega.

9 Kitne dukaandaar aur kitne product daal sakte hain?

Version 1 aaraam se **1000 dukaandaar** aur **hazaaron product** sambhal legi. Aapne kaha tha 20 product se shuru, baad me 200+ — iske liye to bahut jagah hai.

10 Baad me upgrade karne par purana data rahega?

Haan, bilkul. Yeh sabse zaroori design decision hai. Upgrade ka matlab hai naye feature **jodna** — app dobara banana nahi. Purane bill, udhaari, customer, stock — sab waise ka waisa rahega. Dobara data entry nahi karni padegi.

11 Upgrade karne me kaam kitne din rukega?

1–2 din se zyada nahi. Aur wo bhi pehle se batakar, jab aapka kaam kam ho.

Paisa aur support

12 Yeh ₹9,400 saalana kis cheez ka hai?

Server, domain, backup aur OTP SMS ka. Yeh **hamara charge nahi hai** — yeh seedha service company ko jata hai. Chahein to aap khud bhi pay kar sakte hain, ya hum manage kar dein. Isme koi commission nahi hai.

13 3 mahine ke baad kharabi aayi to?

Yearly maintenance le sakte hain — ₹6,000/saal. Isme bug fix, chhote badlaav aur Android update support shaamil hai. Yeh optional hai. Ya phir jab zaroorat ho tab alag se bhi karwa sakte hain.

14 GST bill legally valid hoga?

Haan. Bill me GSTIN, HSN code, CGST/SGST alag alag, bill number series — sab hoga, jaisa GST me zaroori hai. Note: agar aapka turnover itna bada ho ki government portal par e-invoice bhejna zaroori ho, to wo alag se batana hoga — wo Version 2 me add hota hai.

15 iPhone app abhi kyun nahi?

Apple har saal ₹8,300 leta hai sirf app rakhne ke liye — chahe ek aadmi use kare ya hazaar. Yeh aapke poore server ke kharche se bhi zyada hai. Aapke ilaake me lagbhag sab Android chalte hain. Isliye salah hai — Android se shuru karein, aur agar kisi ko sach me iPhone chahiye tabhi add karein.

16 App Play Store par milegi?

Haan. App Google Play Store par daali jayegi, taaki dukaandaar aur salesman aasani se download kar sakein. Iske liye Google ka ₹2,200 ek baar lagta hai (zindagi bhar ke liye).

Selection & confirmation — tick karke wapas bhej dein

Neeche jo version chahiye uspar tick lagayein, sign karein aur wapas bhej dein. Uske agle din se kaam shuru ho jayega.

1. Version chunein

☐	Version 1 — Starter Order, delivery, GST bill, udhaari, stock, offline, GPS, top-10	₹18,000	5–6 hafte SUJHAAN
☐	Version 2 — Growth V1 + auto scheme, SMS alert, target, salesman order, purchase	₹35,000	9–10 hafte
☐	Version 3 — Professional V2 + iPhone, batch/expiry, multi-godown, return, commission, graph	₹65,000	16–17 hafte
☐	Version 4 — Complete V3 + multi-business, Tally link, AI, route optimization	₹1,20,000	26–27 hafte

2. Extra (agar chahiye to tick karein)

☐	iPhone app abhi chahiye (V1 ya V2 ke saath) Development + Apple ka ₹8,300 har saal alag	+₹15,000
☐	Purana data (product + customer) hum daal dein Excel me de denge to free hai	+₹3,000
☐	Yearly maintenance (3 mahine free ke baad)	₹6,000/saal
☐	Server, domain, backup, OTP — hum manage karein Actual kharcha, koi commission nahi	₹9,400/saal

3. Zaroori jaankari (kaam shuru karne ke liye chahiye)

Business ka naam

GST number (GSTIN)

Kitne salesman hain

Kitne dukaandaar (approx)

Kitne product (approx)

4. Confirmation

Client ka naam & signature

Date

Developer ka naam & signature

Date

Kaam kaise shuru hoga:

1. Aap version tick karke yeh page wapas bhejein → 2. 40% advance → 3. Hum design dikhayenge, aap approve karenge → 4. App banega → 5. Demo, aap check karenge (30%) → 6. Live + training (30%) → 7. 3 mahine free support

Note: Yeh proposal 30 din tak valid hai. Prices me GST alag se lagega agar applicable ho. Kaam shuru hone ke baad agar naye features chahiye honge to unka quote alag se diya jayega — taaki timeline aur budget dono clear rahein.
